## VENICE BEACH BID IN THE COMMUNITY

Our December board meeting was attended by Zachary Gaidzik, who serves as Sheila Kuehl's Field Deputy for the West/Metro Los Angeles Office. During his presentation, he mentioned a new mapping tool being used to help with housing the homeless. Many people asked for more information so we have supplied it here:

### LA County Unveils New Mapping Tool to Help Facilitate Housing for the Homeless

Los Angeles County recently unveiled a multilayered, interactive GIS planning tool designed to guide urgent efforts to create interim and supportive housing to address the homelessness crisis. The map makes it possible to view the homeless population data geographically, while adding layers that show existing supportive and interim housing, as well as housing that is currently being developed. For more information, please visit the links below.
